If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 2.02 Results of Operations and Financial Condition

On July 22, 2021, Celanese Corporation (the "Company") issued a press release reporting the financial results for its second quarter 2021. A copy of the press release is attached to this Current Report on Form 8-K ("Current Report") as Exhibit 99.1 and is incorporated herein solely for purposes of this Item 2.02 disclosure. Each non-US GAAP financial measure appearing in the press release is accompanied by the most directly comparable US GAAP financial measure and is reconciled to the most comparable US GAAP financial measure in Exhibit 99.2, which includes other supplemental information of interest to investors, analysts and other parties, including the reasons why management believes such Non-US GAAP financial measures provide useful information to investors, and which is incorporated herein solely for purposes of this Item 2.02 disclosure.

Item 9.01 Financial Statements and Exhibits

(d) The following exhibits are being furnished herewith:

Exhibit Number	Description
99.1	Press Release dated July 22, 2021*
99.2	Non-US GAAP Financial Measures and Supplemental Information dated July 22, 2021*
104	Cover Page Interactive Data File (the cover page XBRL tags are embedded within the inline XBRL document contained in Exhibit 101).

*In connection with the disclosure set forth in Item 2.02, the information in this Current Report, including the exhibits attached hereto, is being furnished and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities of such section. The information in this Current Report, including the exhibits, shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any incorporation by reference language in any such filing.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Celanese Corporation Reports Second Quarter 2021 Earnings; Raises Full Year Financial Outlook

Dallas, July 22, 2021: Celanese Corporation (NYSE: CE), a global chemical and specialty materials company, today reported second quarter GAAP diluted earnings per share of \$4.81, the second highest in the Company's history, and highest-ever adjusted earnings per share of \$5.02. The Company reported record net sales of \$2.2 billion for the quarter with sequential pricing and volume increases of 18 percent and 4 percent, respectively. Actions over the past year, including accelerated turnarounds as well as enhanced sourcing and commercial flexibility, positioned the Company to meet elevated post-pandemic demand in 2021 and to deliver record performance during the second quarter. Engineered Materials and the Acetyl Chain successfully offset continued raw material inflation to drive consolidated operating profit of \$567 million and adjusted EBIT of \$691 million.

The recently announced acquisition of Santoprene™ and ongoing capital projects within the Acetyl Chain and Engineered Materials position the Company to further raise its future base earnings and deliver sustained shareholder value. During the quarter, the Company returned \$326 million of cash to shareholders in the form of share repurchases and dividends.

Second Quarter 2021 Financial Highlights:

Recent Highlights:

- Announced the signing of a definitive agreement to acquire the Santoprene™ TPV elastomers business of Exxon Mobil Corporation for \$1.15 billion, strengthening the existing elastomers portfolio and bringing a wider range of functionalized solutions into targeted growth areas.
- Announced the acquisition of certain technology and sales agreements relating to the production of polyacetal (POM) products from Grupa Azoty S.A. of Poland, following their decision to discontinue POM manufacturing.
- Announced an expansion of the Florence, Kentucky research and development center with the addition of a pharmaceutical drug delivery lab, supporting programs, and products for long-acting, controlled release drug delivery.
- Increased the outstanding share repurchase authorization by \$1.0 billion, approved by the Board of Directors in July. As of June 30, 2021, the Company had \$563 million remaining under the previous authorization.

Second Quarter 2021 Business Segment Overview**Engineered Materials**

Engineered Materials reported record net sales of \$682 million in the second quarter, primarily due to a 7 percent sequential pricing increase. Pricing expanded during the second quarter, driven by the commercial team's implementation of pricing initiatives in line with raw material inflation, as well as improved mix. Volume was stable compared to the prior period, as the business proactively navigated significant raw material constraints and offset a sequential decline in global auto builds amid semiconductor supply shortages. Engineered Materials generated second quarter GAAP operating profit of \$123 million and adjusted EBIT of \$161 million. GAAP operating profit and adjusted EBIT margins were 18 percent and 24 percent, respectively. Affiliate earnings increased by \$7 million during the second quarter, primarily due to improved performance by Ibn Sina.

Acetyl Chain

The Acetyl Chain generated record net sales of \$1.4 billion, a 33 percent increase from the prior quarter due to sequential increases in pricing and volume. Pricing increased 27 percent, primarily due to elevated acetic acid pricing in China amid tightened industry utilization. Volume increased 7 percent sequentially driven by availability of incremental Acetyl Chain production capacity and continued strong demand across most end-markets and regions. The Company successfully resolved raw material constraints and brought its Clear Lake, Texas acetic acid facility back to full operating rates during the second quarter. The Acetyl Chain generated record GAAP operating profit and adjusted EBIT of \$516 million and \$514 million, respectively, during the second quarter. The business also delivered record operating profit margin of 37 percent and adjusted EBIT margin of 36 percent, expansions of 1,280 and 980 basis points, respectively, over the prior quarter.

Acetate Tow

Acetate Tow recorded net sales of \$138 million during the second quarter, which reflected a sequential volume increase of 16 percent and stable pricing. Volume expansion in the second quarter was primarily attributable to timing of customer orders, which were delayed in the prior quarter due to Winter Storm Uri. Higher volume offset the impact of elevated natural gas and acetyls costs to contribute to second quarter GAAP operating profit of \$24 million and adjusted EBIT of \$62 million. Dividends from affiliates in the second quarter were \$37 million, lower sequentially due to the timing of dividend payments.

Cash Flow and Tax

The Company generated second quarter operating cash flow of \$427 million and free cash flow of \$309 million. Capital expenditures in the second quarter were \$110 million and included expenditures for expansion and productivity projects within the Acetyl Chain and Engineered Materials businesses. The Company returned \$326 million in cash to shareholders during the second quarter, including \$250 million of share repurchases and \$76 million of dividends.

The effective US GAAP tax rate of 18 percent in the second quarter was lower in comparison to 24 percent in the same quarter of last year, primarily due to non-recurring adjustments to uncertain tax positions in the prior year, partially offset by increased earnings in high tax jurisdictions. During the second quarter, the Company increased the full year adjusted tax rate from 14 percent to 15 percent, primarily due to the increase in earnings in higher tax jurisdictions. This resulted in an adjusted tax rate of 16 percent for the quarter.

Outlook

"Our record performance this quarter reflected the global positions and unique optionality within our businesses to meet elevated customer demand despite significant sourcing and supply chain constraints that persist," said Lori Ryerkerk, chairman and chief executive officer. "With very strong earnings and cash generation across 2021, we are investing in future growth via organic opportunities within our businesses, disciplined M&A like the Santoprene acquisition, and share repurchases. Our teams' proactive response to the ongoing global supply chain constraints and inflationary backdrop have positioned us well as we enter the second half of 2021. We anticipate that continued moderation in Acetyl Chain industry pricing as the year progresses will be partially offset by strong fundamental demand across our businesses and modest continued sequential earnings momentum in Engineered Materials. As a result, we expect third quarter 2021 adjusted earnings of \$4.50 to \$4.75 per share and full year 2021 adjusted earnings of \$16.50 to \$17.00 per share."

The Company is unable to reconcile forecasted adjusted earnings per share growth to US GAAP diluted earnings per share without unreasonable efforts because a forecast of Certain Items, such as mark-to-market pension gains/losses, is not practical. For more information, see "Non-GAAP Financial Measures" below.

The Company's prepared remarks related to the second quarter will be posted on its website at investors.celanese.com under Financial Information/Financial Document Library on July 22, 2021. Information about Non-US GAAP measures is included in a Non-US GAAP Financial Measures and Supplemental Information document posted on our investor relations website under Financial Information/Non-GAAP Financial Measures. See also "Non-GAAP Financial Measures" below.

Forward-Looking Statements

This release may contain "forward-looking statements," which include information concerning the Company's plans, objectives, goals, strategies, future revenues or performance, capital expenditures, financing needs and other information that is not historical information. All forward-looking statements are based upon current expectations and beliefs and various assumptions. There can be no assurance that the Company will realize these expectations or that these beliefs will prove correct. There are a number of risks and uncertainties that could cause actual results to differ materially from the results expressed or implied in the forward-looking statements contained in this release. These risks and uncertainties include, among other things: the extent to which the COVID-19 pandemic continues to adversely impact the economic environment, market demand and our operations, as well as the pace of any economic recovery; changes in general economic, business, political and regulatory conditions in the countries or regions in which we operate; the length and depth of product and industry business cycles, particularly in the automotive, electrical, mobility, textiles, medical, electronics and construction industries; changes in the price and availability of raw materials, particularly changes in the demand for, supply of, and market prices of ethylene, methanol, natural gas, wood pulp and fuel oil and the prices for electricity and other energy sources; the ability to pass increases in raw material prices on to customers or otherwise improve margins through price increases; the ability to maintain plant utilization rates and to implement planned capacity additions and expansions as well as facility turnarounds; the ability to reduce or maintain their current levels of production costs and to improve productivity by implementing technological improvements to existing plants; the ability to identify desirable potential acquisition targets and to complete acquisition or investment transactions consistent with the Company's strategy; the ability to identify and execute on other attractive investment opportunities towards which to deploy capital; increased price competition and the introduction of competing products by other companies; market acceptance of our products and technology; compliance and other costs and potential disruption or interruption of production or operations due to accidents, interruptions in sources of raw materials, cyber security incidents, terrorism or political unrest, public health crises (including, but not limited to, the COVID-19 pandemic); other unforeseen events or delays in construction or operation of facilities, including as a result of geopolitical conditions, the occurrence of acts of war or terrorist incidents or as a result of weather or natural disasters or other crises including public health crises; the ability to obtain governmental approvals and to construct facilities on terms and schedules acceptable to the Company; changes in the degree of intellectual property and other legal protection afforded to our products or technologies, or the theft of such intellectual property; potential liability for remedial actions and increased costs under existing or future environmental, health and safety regulations, including those relating to climate change; potential liability resulting from pending or future litigation, or from changes in the laws, regulations or policies of governments or other governmental activities in the countries in which we operate; changes in currency exchange rates and interest rates; our level of indebtedness, which could diminish our ability to raise additional capital to fund operations or limit our ability to react to changes in the economy or the chemicals industry; tax rates and changes thereto; our ability to obtain regulatory approval for, and satisfy closing conditions to, any transactions described herein; and various other factors discussed from time to time in the Company's filings with the Securities and Exchange Commission.

The extent to which COVID-19 will adversely impact our business, financial condition and results of operations will depend on numerous evolving factors, which are highly uncertain, rapidly changing and cannot be predicted, including: the extent of any resurgence in infections and the spread of the disease, and the effectiveness of any vaccines; additional governmental, business and individual actions to contain the spread of the outbreak, including social distancing, work-at-home, stay-at-home and shelter-in-place orders and shutdowns, travel restrictions and quarantines; the extent to which these conditions depress economic activity generally and demand for our products specifically and affect the financial markets; the effect of the outbreak on our customers, suppliers, supply chain and other business partners; our ability during the outbreak to provide our products and services, including the health and well-being of our employees; business disruptions caused by actual or potential plant, workplace and office closures; the risk that we could be exposed to liability, negative publicity or reputational harm related to any incidents of actual or perceived transmission of COVID-19 among employees at our facilities; the ability of our customers to pay for our products and services during and following the outbreak; the impact of the outbreak on the financial markets and economic activity generally; our ability to access usual sources of liquidity on reasonable terms; and our ability to comply with the financial covenant in our Credit Agreement if a material and prolonged economic downturn results in increased indebtedness or substantially lower EBITDA.

Any forward-looking statement speaks only as of the date on which it is made, and the Company undertakes no obligation to update any forward-looking statements to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

Non-GAAP Financial Measures**Presentation**

This document presents the Company's three business segments, Engineered Materials, Acetate Tow and Acetyl Chain.

Use of Non-US GAAP Financial Information

This release uses the following Non-US GAAP measures: adjusted EBIT, adjusted EBIT margin, operating EBITDA, adjusted earnings per share and free cash flow. These measures are not recognized in accordance with US GAAP and should not be viewed as an alternative to US GAAP measures of performance or liquidity. The most directly comparable financial measure presented in accordance with US GAAP in our consolidated financial statements for adjusted EBIT and operating EBITDA is net earnings (loss) attributable to Celanese Corporation; for adjusted EBIT margin is operating margin; for adjusted earnings per share is earnings (loss) from continuing operations attributable to Celanese Corporation per common share-diluted; and for free cash flow is net cash provided by (used in) operations.

Definitions of Non-US GAAP Financial Measures

- Adjusted EBIT is a performance measure used by the Company and is defined by the Company as net earnings (loss) attributable to Celanese Corporation, plus (earnings) loss from discontinued operations, less interest income, plus interest expense, plus refinancing expense and taxes, and further adjusted for Certain Items (refer to Table 8 of our Non-US GAAP Financial Measures and Supplemental Information document). We do not provide reconciliations for adjusted EBIT on a forward-looking basis (including those contained in this document) when we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of Certain Items, such as mark-to-market pension gains and losses, that have not yet occurred, are out of our control and/or cannot be reasonably predicted. For the same reasons, we are unable to address the probable significance of the unavailable information. Adjusted EBIT margin is defined by the Company as adjusted EBIT divided by net sales.
- Operating EBITDA is a performance measure used by the Company and is defined by the Company as net earnings (loss) attributable to Celanese Corporation, plus (earnings) loss from discontinued operations, less interest income, plus interest expense, plus refinancing expense, taxes and depreciation and amortization, and further adjusted for Certain Items, which Certain Items include accelerated depreciation and amortization expense. Operating EBITDA is equal to adjusted EBIT plus depreciation and amortization.
- Adjusted earnings per share is a performance measure used by the Company and is defined by the Company as earnings (loss) from continuing operations attributable to Celanese Corporation, adjusted for income tax (provision) benefit, Certain Items, and refinancing and related expenses, divided by the number of basic common shares and dilutive restricted stock units and stock options calculated using the treasury method. We do not provide reconciliations for adjusted earnings per share on a forward-looking basis (including those contained in this document) when we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of Certain Items, such as mark-to-market pension gains and losses, that have not yet occurred, are out of our control and/or cannot be reasonably predicted. For the same reasons, we are unable to address the probable significance of the unavailable information.

Note: The income tax expense (benefit) on Certain Items ("Non-GAAP adjustments") is determined using the applicable rates in the taxing jurisdictions in which the Non-GAAP adjustments occurred and includes both current and deferred income tax expense (benefit). The income tax rate used for adjusted earnings per share approximates the midpoint in a range of forecasted tax rates for the year. This range may include certain partial or full-year forecasted tax opportunities and related costs, where applicable, and specifically excludes changes in uncertain tax positions, discrete recognition of GAAP items on a quarterly basis, other pre-tax items adjusted out of our GAAP earnings for adjusted earnings per share purposes and changes in management's assessments regarding the ability to realize deferred tax assets for GAAP. In determining the adjusted earnings per share tax rate, we reflect the impact of foreign tax credits when utilized, or expected to be utilized, absent discrete events impacting the timing of foreign tax credit utilization. We analyze this rate quarterly and adjust it if there is a material change in the range of forecasted tax rates; an updated forecast would not necessarily result in a change to our tax rate used for adjusted earnings per share. The adjusted tax rate is an estimate and may differ from the actual tax rate used for GAAP reporting in any given reporting period. Table 3a of our Non-US GAAP Financial Measures and Supplemental Information document summarizes the reconciliation of our estimated GAAP effective tax rate to the adjusted tax rate. The estimated GAAP rate excludes discrete recognition of GAAP items due to our inability to forecast such items. As part of the year-end reconciliation, we will update the reconciliation of the GAAP effective tax rate to the adjusted tax rate for actual results.

- Free cash flow is a liquidity measure used by the Company and is defined by the Company as cash flow from operations, less capital expenditures on property, plant and equipment, and adjusted for capital contributions from or distributions to Mitsui & Co., Ltd. ("Mitsui") related to our methanol joint venture, Fairway Methanol LLC ("Fairway").

Reconciliation of Non-US GAAP Financial Measures

Reconciliations of the Non-US GAAP financial measures used in this press release to the comparable US GAAP financial measure, together with information about the purposes and uses of Non-US GAAP financial measures, are included in our Non-US GAAP Financial Measures and Supplemental Information document filed as an exhibit to our Current Report on Form 8-K filed with the SEC on or about July 22, 2021 and also available on our website at investors.celanese.com under Financial Information/Financial Document Library.

Results Unaudited

The results in this document, together with the adjustments made to present the results on a comparable basis, have not been audited and are based on internal financial data furnished to management. Quarterly results should not be taken as an indication of the results of operations to be reported for any subsequent period or for the full fiscal year.

Supplemental Information

Additional information about our prior period performance is included in our Quarterly Reports on Form 10-Q and in our Non-US GAAP Financial Measures and Supplemental Information document.

Non-US GAAP Financial Measures and Supplemental Information

July 22, 2021

In this document, the terms the "Company," "we" and "our" refer to Celanese Corporation and its subsidiaries on a consolidated basis.

Purpose

The purpose of this document is to provide information of interest to investors, analysts and other parties including supplemental financial information and reconciliations and other information concerning our use of non-US GAAP financial measures. This document is updated quarterly.

Presentation

This document presents the Company's three business segments, Engineered Materials, Acetate Tow and Acetyl Chain.

Use of Non-US GAAP Financial Measures

From time to time, management may publicly disclose certain numerical "non-GAAP financial measures" in the course of our earnings releases, financial presentations, earnings conference calls, investor and analyst meetings and otherwise. For these purposes, the Securities and Exchange Commission ("SEC") defines a "non-GAAP financial measure" as a numerical measure of historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that effectively exclude amounts, included in the most directly comparable measure calculated and presented in accordance with US GAAP, and vice versa for measures that include amounts, or are subject to adjustments that effectively include amounts, that are excluded from the most directly comparable US GAAP measure so calculated and presented. For these purposes, "GAAP" refers to generally accepted accounting principles in the United States.

Non-GAAP financial measures disclosed by management are provided as additional information to investors, analysts and other parties because the Company believes them to be important supplemental measures for assessing our financial and operating results and as a means to evaluate our financial condition and period-to-period comparisons. These non-GAAP financial measures should be viewed as supplemental to, and should not be considered in isolation or as alternatives to, net earnings (loss), operating profit (loss), operating margin, cash flow from operating activities (together with cash flow from investing and financing activities), earnings per share or any other US GAAP financial measure. These non-GAAP financial measures should be considered within the context of our complete audited and unaudited financial results for the given period, which are available on the Financial Information/Financial Document Library page of our website, investors.celanese.com. The definition and method of calculation of the non-GAAP financial measures used herein may be different from other companies' methods for calculating measures with the same or similar titles. Investors, analysts and other parties should understand how another company calculates such non-GAAP financial measures before comparing the other company's non-GAAP financial measures to any of our own. These non-GAAP financial measures may not be indicative of the historical operating results of the Company nor are they intended to be predictive or projections of future results.

Pursuant to the requirements of SEC Regulation G, whenever we refer to a non-GAAP financial measure, we will also present in this document, in the presentation itself or on a Form 8-K in connection with the presentation on the Financial Information/Financial Document Library page of our website, investors.celanese.com, to the extent practicable, the most directly comparable financial measure calculated and presented in accordance with GAAP, along with a reconciliation of the differences between the non-GAAP financial measure we reference and such comparable GAAP financial measure.

This document includes definitions and reconciliations of non-GAAP financial measures used from time to time by the Company.

Specific Measures Used

This document provides information about the following non-GAAP measures: adjusted EBIT, adjusted EBIT margin, operating EBITDA, operating EBITDA margin, operating profit (loss) attributable to Celanese Corporation, adjusted earnings per share, net debt, free cash flow and return on invested capital (adjusted). The most directly comparable financial measure presented in accordance with US GAAP in our consolidated financial statements for adjusted EBIT and operating EBITDA is net earnings (loss) attributable to Celanese Corporation; for adjusted EBIT margin and operating EBITDA margin is operating margin; for operating profit (loss) attributable to Celanese Corporation is operating profit (loss); for adjusted earnings per share is earnings (loss) from continuing operations attributable to Celanese Corporation per common share-diluted; for net debt

is total debt; for free cash flow is net cash provided by (used in) operations; and for return on invested capital (adjusted) is net earnings (loss) attributable to Celanese Corporation divided by the sum of the average of beginning and end of the year short- and long-term debt and Celanese Corporation stockholders' equity.

Definitions

- Adjusted EBIT is a performance measure used by the Company and is defined by the Company as net earnings (loss) attributable to Celanese Corporation, plus (earnings) loss from discontinued operations, less interest income, plus interest expense, plus refinancing expense and taxes, and further adjusted for Certain Items (refer to [Table 8](#)). We believe that adjusted EBIT provides transparent and useful information to management, investors, analysts and other parties in evaluating and assessing our primary operating results from period-to-period after removing the impact of unusual, non-operational or restructuring-related activities that affect comparability. Our management recognizes that adjusted EBIT has inherent limitations because of the excluded items. Adjusted EBIT is one of the measures management uses for planning and budgeting, monitoring and evaluating financial and operating results and as a performance metric in the Company's incentive compensation plan. We do not provide reconciliations for adjusted EBIT on a forward-looking basis (including those contained in this document) when we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of Certain Items, such as mark-to-market pension gains and losses, that have not yet occurred, are out of our control and/or cannot be reasonably predicted. For the same reasons, we are unable to address the probable significance of the unavailable information. Adjusted EBIT margin is defined by the Company as adjusted EBIT divided by net sales. Adjusted EBIT margin has the same uses and limitations as Adjusted EBIT.
- Operating EBITDA is a performance measure used by the Company and is defined by the Company as net earnings (loss) attributable to Celanese Corporation, plus (earnings) loss from discontinued operations, less interest income, plus interest expense, plus refinancing expense, taxes and depreciation and amortization, and further adjusted for Certain Items, which Certain Items include accelerated depreciation and amortization expense. Operating EBITDA is equal to adjusted EBIT plus depreciation and amortization. We believe that Operating EBITDA provides transparent and useful information to investors, analysts and other parties in evaluating our operating performance relative to our peer companies. Operating EBITDA margin is defined by the Company as Operating EBITDA divided by net sales. Operating EBITDA margin has the same uses and limitations as Operating EBITDA.
- Operating profit (loss) attributable to Celanese Corporation is defined by the Company as operating profit (loss), less earnings (loss) attributable to noncontrolling interests ("NCI"). We believe that operating profit (loss) attributable to Celanese Corporation provides transparent and useful information to management, investors, analysts and other parties in evaluating our core operational performance. Operating margin attributable to Celanese Corporation is defined by the Company as operating profit (loss) attributable to Celanese Corporation divided by net sales. Operating margin attributable to Celanese Corporation has the same uses and limitations as Operating profit (loss) attributable to Celanese Corporation.
- Adjusted earnings per share is a performance measure used by the Company and is defined by the Company as earnings (loss) from continuing operations attributable to Celanese Corporation, adjusted for income tax (provision) benefit, Certain Items, and refinancing and related expenses, divided by the number of basic common shares and dilutive restricted stock units and stock options calculated using the treasury method. We believe that adjusted earnings per share provides transparent and useful information to management, investors, analysts and other parties in evaluating and assessing our primary operating results from period-to-period after removing the impact of the above stated items that affect comparability and as a performance metric in the Company's incentive compensation plan. We do not provide reconciliations for adjusted earnings per share on a forward-looking basis (including those contained in this document) when we are unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing and amount of Certain Items, such as mark-to-market pension gains and losses, that have not yet occurred, are out of our control and/or cannot be reasonably predicted. For the same reasons, we are unable to address the probable significance of the unavailable information.

Note: The income tax expense (benefit) on Certain Items ("Non-GAAP adjustments") is determined using the applicable rates in the taxing jurisdictions in which the Non-GAAP adjustments occurred and includes both current and deferred income tax expense (benefit). The income tax rate used for adjusted earnings per share approximates the midpoint in a range of forecasted tax rates for the year. This range may include certain partial or full-year forecasted tax opportunities and related costs, where applicable, and specifically excludes changes in uncertain tax positions, discrete recognition of GAAP items on a quarterly basis, other pre-tax items adjusted out of our GAAP earnings for adjusted earnings per share purposes and changes in management's assessments regarding the ability to realize deferred tax assets for GAAP. In determining the adjusted earnings per share tax rate, we reflect the impact of foreign tax credits when utilized, or expected to be utilized, absent discrete events impacting the timing of foreign tax credit utilization. We analyze this rate quarterly and adjust it if there is a material change in the range of forecasted tax rates; an updated forecast would not necessarily result in a change to our tax rate used for adjusted earnings per share. The adjusted tax rate is an estimate and may differ from the actual tax rate used for GAAP reporting in any given reporting period. [Table 3a](#) summarizes the reconciliation of our estimated GAAP effective tax rate to the adjusted tax rate. The estimated GAAP rate excludes discrete recognition of GAAP items due to our inability to forecast such items. As part of the year-end reconciliation, we will update the reconciliation of the GAAP effective tax rate to the adjusted tax rate for actual results.

- *Free cash flow is a liquidity measure used by the Company and is defined by the Company as net cash provided by (used in) operations, less capital expenditures on property, plant and equipment, and adjusted for capital contributions from or distributions to Mitsui & Co., Ltd. ("Mitsui") related to our methanol joint venture, Fairway Methanol LLC ("Fairway"). We believe that free cash flow provides useful information to management, investors, analysts and other parties in evaluating the Company's liquidity and credit quality assessment because it provides an indication of the long-term cash generating ability of our business. Although we use free cash flow as a measure to assess the liquidity generated by our business, the use of free cash flow has important limitations, including that free cash flow does not reflect the cash requirements necessary to service our indebtedness, lease obligations, unconditional purchase obligations or pension and postretirement funding obligations.*
- *Net debt is defined by the Company as total debt less cash and cash equivalents. We believe that net debt provides useful information to management, investors, analysts and other parties in evaluating changes to the Company's capital structure and credit quality assessment.*
- *Return on invested capital (adjusted) is defined by the Company as adjusted EBIT, tax effected using the adjusted tax rate, divided by the sum of the average of beginning and end of the year short- and long-term debt and Celanese Corporation stockholders' equity. We believe that return on invested capital (adjusted) provides useful information to management, investors, analysts and other parties in order to assess our income generation from the point of view of our stockholders and creditors who provide us with capital in the form of equity and debt and whether capital invested in the Company yields competitive returns.*

Supplemental Information

Supplemental Information we believe to be of interest to investors, analysts and other parties includes the following:

- *Net sales for each of our business segments and the percentage increase or decrease in net sales attributable to price, volume, currency and other factors for each of our business segments.*
- *Cash dividends received from our equity investments.*
- *For those consolidated ventures in which the Company owns or is exposed to less than 100% of the economics, the outside stockholders' interests are shown as NCI. Beginning in 2014, this includes Fairway for which the Company's ownership percentage is 50%. Amounts referred to as "attributable to Celanese Corporation" are net of any applicable NCI.*

Results Unaudited

The results in this document, together with the adjustments made to present the results on a comparable basis, have not been audited and are based on internal financial data furnished to management. Quarterly results should not be taken as an indication of the results of operations to be reported for any subsequent period or for the full fiscal year.

Total Company	(5)	(6)	—	1	(10)

Table 5
Free Cash Flow - Reconciliation of a Non-GAAP Measure - Unaudited

	Q2 '21	Q1 '21	2020	Q4 '20	Q3 '20	Q2 '20	Q1 '20
(In \$ millions, except percentages)							
Net cash provided by (used in) investing activities	177	98	592	979	(78)	(181)	(128)
Net cash provided by (used in) financing activities	(344)	(371)	(1,471)	(933)	(290)	(232)	(16)
Net cash provided by (used in) operating activities	427	116	1,343	274	431	379	259
Capital expenditures on property, plant and equipment	(110)	(92)	(364)	(85)	(72)	(88)	(119)
Distributions to NCI	(8)	(5)	(29)	(8)	(8)	(8)	(5)
Free cash flow⁽¹⁾⁽²⁾	309	19	950	181	351	283	135
Net sales	2,198	1,798	5,655	1,591	1,411	1,193	1,460
Free cash flow as % of Net sales	14.1 %	1.1 %	16.8 %	11.4 %	24.9 %	23.7 %	9.2 %

⁽¹⁾ Free cash flow is a liquidity measure used by the Company and is defined by the Company as net cash provided by (used in) operating activities, less capital expenditures on property, plant and equipment, and adjusted for capital contributions or distributions to Mitsui related to our joint venture, Fairway.

⁽²⁾ Excludes required debt service and finance lease payments of \$30 million and \$26 million for the years ended December 31, 2021 and 2020, respectively.

Table 6
Cash Dividends Received - Unaudited

	Q2 '21	Q1 '21	2020	Q4 '20	Q3 '20	Q2 '20	Q1 '20
(In \$ millions)							
Dividends from equity method investments	18	35	147	36	6	59	46
Dividends from equity investments without readily determinable fair values	37	42	126	28	29	32	37
Total	55	77	273	64	35	91	83

Table 7
Net Debt - Reconciliation of a Non-GAAP Measure - Unaudited

	Q2 '21	Q1 '21	2020	Q4 '20	Q3 '20	Q2 '20	Q1 '20
(In \$ millions)							
Short-term borrowings and current installments of long-term debt - third party and affiliates	500	497	496	496	958	1,045	749
Long-term debt, net of unamortized deferred financing costs	3,156	3,135	3,227	3,227	3,140	2,989	3,356
Total debt	3,656	3,632	3,723	3,723	4,098	4,034	4,105
Cash and cash equivalents	(1,054)	(791)	(955)	(955)	(615)	(539)	(570)
Net debt	2,602	2,841	2,768	2,768	3,483	3,495	3,535

Table 8
Certain Items - Unaudited

The following Certain Items attributable to Celanese Corporation are included in Net earnings (loss) and are adjustments to non-GAAP measures:

	Q2 '21	Q1 '21	2020	Q4 '20	Q3 '20	Q2 '20	Q1 '20	Income Statement Classification
(In \$ millions)								
Plant/office closures	3	(5)	10	7	4	(4)	3	Cost of sales / SG&A / Other (charges) gains, net / Gain (loss) on disposition of businesses and assets, net
Asset impairments	1	1	31	—	2	25	4	Cost of sales / Other (charges) gains, net
Clear Lake incident	—	—	4	—	—	—	4	Cost of sales
COVID-19	—	—	5	2	1	1	1	Cost of sales / SG&A
Mergers, acquisitions and dispositions	6	—	22	5	7	3	7	Cost of sales / SG&A
Impact from natural disasters	—	41	—	—	—	—	—	Cost of sales
Actuarial (gain) loss on pension and postretirement plans	—	—	95	95	—	—	—	Cost of sales / SG&A / Non-operating pension and other postretirement employee benefit (expense) income
Restructuring	2	3	25	5	11	2	7	SG&A / Other (charges) gains, net / Non-operating pension and other postretirement employee benefit (expense) income
European Commission investigation	—	—	2	—	—	2	—	Other (charges) gains, net
Commercial disputes	1	9	(1)	—	—	(1)	—	Cost of sales / SG&A / Other (charges) gains, net
